

January 4th 1999

Dear Commission,

I'm writing to inform you of something that I kept from you when we originally met. I have what I call inner vision. I can see beneath people's skin, and can now see bone structures. My inner vision ~~now~~ gets better the more sun I get. I hope to be able to see people's illness and tell them.

Also I have decided to write the history of the Spartan Aircraft Company. I believe my inner vision may have originated from a Spartan land yacht my husband and I had in the 50's. I've included a picture of me with the Land Yacht.

Sincerely,

Z1 Elsie Ault
